Bridger Pipeline Releases Statement as South Bow Reaffirms Commitment to Cross-Border Canadian Crude Oil Transport

(Casper, WY) Bridger Pipeline Expansion LLC announced today that it intends to connect its proposed 36-inch, 650-mile crude oil pipeline from the US-Canada border to Guernsey to the proposed South Bow Prairie Connector pipeline that begins in Hardesty, Alberta and runs 329 miles (530 km) to the US-Canada border.

South Bow announced on May 29, 2026, that it had secured 20-year binding commitments for firm transportation service from Hardesty, Alberta, to U.S. delivery points. More information on South Bow's announcement can be found at www.southbow.com.

"This is a really important milestone for this project. South Bow's commitment to the Prairie Connector reinforces the value of bringing Canadian crude oil into the US, said Tad True, Executive Partner, Bridger Pipeline. "We are grateful for the vote of confidence of Canadian producers in South Bow's and our ability to get this pipeline built and strengthen the energy security of both our countries."

Bridger Pipeline LLC is a liquid pipeline operator that gathers and transports crude oil in the Williston Basin of western North Dakota, eastern Montana, and the Powder River Basin of Wyoming. The company operates more than 3,700 miles of crude oil gathering and transmission lines. Bridger Pipeline is based in Casper, WY.
